PRODUCTS THAT WILL MAKE YOUR LIFE MUCH EASIER—AND EVEN MORE FUN.

By *Christina Vercelletto*

MOBILE MONITOR

The First Years **900 MHZ**

Attachable Monitor (\$40) uses batteries, so it doesn't need to be near a plug. The coolest feature: It clips onto bouncers, swings, and bassinets. Babies don't sleep only in nurseries, after all.

BEDTIME BUDDY

The Cloud b **Sleep Sheep** (\$30) safely attaches to the outside of the crib and makes four relaxing sounds (heartbeat, rain, surf, and whale songs) to lull your little one off to dreamland.

FEEDING FAVORITES

A solution for the pumping/freezing/feeding drill! Presterilized Avent Via bottle bases attach to the Isis breast pump, and then, with screw-on lids, stack in the freezer. Defrost, attach an Avent Anti-Colic Nipple to feed, and then toss in the dishwasher up to three times. (**Via Nurser Kit**, \$8; bases, 10 for \$5)

The vented bottom of the Playtex **VentAire Natural Shape** (\$5) keeps air bubbles at bay just like the original VentAire, but its wide nipple makes it ideal for babies used to breastfeeding.
