## Cloud b Complete Sleep System

Created by two moms who took solving the problem of sleepless nights into their own hands, the Lullabug™ and Lullawrap™ prove necessity really is the mother of invention. The Lullabug is a sleep sack that takes swaddling to a new level. While reducing the risk of SIDS caused by loose blankets, this system snaps and zips to keep baby warm and comfy all night. Worried about diaper changing? It's a snap — literally — to unfold a sleeping baby for a quick change.

The Complete Sleep System includes three wraps for your growing bundle of joy: the Lullawrap for newborns, a small Lullabug for babies 1-4 months, and a large Lullabug for babies 4-12 months. **\$98.00 at retailers nationwide, or go to [www.cloudb.com](http://www.cloudb.com)**

## Having multiples? chosen especially for fast-growing expecting one little addition?

### Baby Bonding Gift Set

It's normal to be a little anxious about motherhood, especially when you're expecting more than one little someone. And ironically, the very thing moms of multiples spend their waking hours doing — getting up close and personal with one or more babies — can

be what interferes with the bonding process.

Face it, once in awhile, you need time to recharge your batteries. *The Baby Bonding Book* (Self Mastery, 2002), written by Victoria Loveland-Coen, mother of four-year-old twin girls, gives you fifty unique ways to make bonding easier, as well as providing a shoulder of support only another mom could provide. Best of all, the book comes with an audiobook CD and a toy for each baby. **\$34.95 at [www.babybonding.com](http://www.babybonding.com)**

### Lil' Topper

Sip, sip, sip. New moms need lots of water, and all it takes is one soggy diaper bag to learn that not all water bottles are created equal. And once your baby starts drinking bottled water, it's all over... until now! Lil' Topper replaces the lid that comes with your favorite bottled water and creates a no-spill sippy that both you and your kids can enjoy. Plus, it's safer than sport tops, which are a hazard for small children.
